

# Inventory Management Solutions

36" wide x 46" height x 27" deep.

**Drawer Heights:** 13 Drawer - 12 - 3", 1 - 4"  
8 Drawer - 3 - 4", 4 - 5" & 1 - 8"

## What can you expect?

Some of the many benefits of enrolling in our Vendor Managed Inventory Program

- Automate the replenishment of your inventory
- Keep a lower on-hand supply
- Make well-informed decisions based on history
- Easily analyze order points for each item location
- Reduce time in processing orders
- Immediately notify suppliers of critical inventory
- Reduce on-hand inventory by an average of 30%
- Variety of reports to provide the information you need
- Use barcoding to better organize storage areas
- Eliminate surplus inventory
- Reduced tooling consumption
- Greatly reduce item search times
- Track accountability of durable and expendable tooling
- Issue tooling with a single barcode scan
- Search by item attributes
- Restrict uses to a specific product mix
- Direct connection to online catalog for spot buys through the software with a direct link to your URL
- Increased productivity and profitability

Our VMI program is designed to improve your customers' overall efficiency, reduce on-hand inventory, automate the replenishment process and increase productivity. These machines can communicate directly back to your headquarters allowing you to fill orders in a timely fashion, and provide you and your customers with a variety of reporting options. All of your customers will see an immediate impact on usage, and their first month's savings are often amazing! If you really want to help your customers take control of their inventory, save direct inventory cost and improve the process on their floor, contact today.
